- Record an address near the illegal dumping location
- Number of people dumping
- Clothing description (color & type of clothing)

If you witness an illegal dumping incident, please dial 311 to report an illegal dumping site on public or private property.

## HOMEOWNER'S RESPONSIBILITY

### HIRED CONTRACTORS MUST USE A LEGAL LANDFILL

The City of Jackson is encouraging citizens to utilize the resourceful and environmental landfill located in Byram, MS. WHY? The Byram Landfill is more than just a place residents can use to dispose of yard waste, white goods, construction materials, and other household debris. Today's culture is focusing on the importance of Recycling and "Going Green" and what better way to expand OUR ROLE in recycling than to use the landfill to its full potential.

City of Jackson Byram Landfill (Disposal Fee Required)

6810 I-55 South, Byram Exit 85

2.5 miles South on East Frontage Rd.

Monday - Saturday

7:00 a.m.-4:00p.m.

601-373-5863

Section 122-308 of the City of Jackson Stormwater Quality Protection Ordinance states the following as it relates to the contents included in the ordinance:

#### Section. 122-308. Violations and penalties

(b) Any person having control over an activity or any real property, or who causes, authorizes, facilitates, aids or abets any violation of any provision of this article, or who fails to abate any nuisance or prohibited practices for which the person is responsible, is guilty of a misdemeanor punishable by a fine not exceeding \$1,000.00 or imprisonment not exceeding 90 days, or both for each offense. Each day of violation shall be a separate offense.

This brochure is intended to provide information to tire vendors, salvage yard dealers, transportation companies and other waste tire collectors regarding the proper management and disposal of waste tires in the City of Jackson.

### NEW/USED TIRES SALES

Vendors collecting a waste fee to recycle an old tire from their consumers must properly dispose the waste tire at an approved Recycling Facility. Vendors must understand that it is against the law to illegally dump tires in ditches, creeks and other waterways that will cause a negative impact on the water quality throughout the City. Any person or entity found to be in violation of the ordinance is subject to being fined or imprisoned. Each violation shall constitute a separate offense.

### STORAGE OF WASTE TIRES

Tires stored on site must be stored free of weeds and vegetation, free of standing water, away from potential combustion sources, preferably under a shed or inside of your facility and in a manner otherwise which will protect human health and the environment. Waste tires may not be burned or placed for storage or disposed in any unauthorized location.

## TRANSPORTATION AND DISPOSAL OF WASTE TIRES

It is unlawful for a tire retailer or other waste tire generator to provide waste tires to any person who does not possess a valid or current waste tire hauler identification number. Any person who hauls 50 or more waste tires at a time should register to receive a waste tire hauler identification number. These haulers are required to carry a copy of a valid and current certificate issued by the MDEQ on each vehicle that they use to transport tires.

All haulers are required to transport the waste tires to a collection, processing, and/or recycling facility or other site authorized by the City of Jackson Alternative sites where tires are used for erosion control, agricultural uses, or other projects must have written approval from the proper authorities before tires can be transported to these sites.
